

contracting support

Many organisations that procure services or manage grants programs are unsure as to the real quality of what they are receiving or whether the intended outcomes are being achieved. If managed well, these arrangements can be the most cost effective way to obtain value for money for the taxpayer, stretch budgets and access valuable expertise. If managed poorly organisations may end up paying much more, for less.

How well are they really meeting your performance requirements?

procurement & grants management

business case development

tendering management

grants management

contract performance management

tender & grants application assistance

probity & corporate management

probity advice & audit

compliance assessment

corporate governance review

corporate responsibility

business improvement

program & project evaluation

business process review

solution implementation

cost models and financial analysis

PSI Asia Pacific has developed a unique methodology known as Perform!Gain. This contract management support system can be used to establish a performance audit trail for the life of the contract or agreement. Additionally, it supports the improvement of quality throughout the term of the contract/agreement with a continuous benchmarking capability.

contract & agreement management

PSI Asia Pacific, utilising the Perform!Gain methodology, provides you with tools which support:

- Briefing, skills assessment and training of contract/ agreement management personnel.
- Development of performance breakdown structures.
- Development of contract management structures.
- Development of key performance indicators to measure performance.
- Mechanisms to monitor the extent of customer satisfaction.
- Performance measurement and management.
- Performance reviews and reporting.
- Review of Service Level Agreements.
- Management of contract or agreement change proposals.
- Contract post-completion reviews.
- Review and redesign/update of Statement of Requirement/Specification.
- Incorporation of lessons learned into new documentation.
- Assessment of whether to extend the contract/ agreement or to not.
- Assessment of the viability of transition-out plans for outgoing arrangements.
- Development of the outline strategy for new contracts or agreements.
- Business case development reflecting changing business needs.
